

Fire Marshal Training

This course is suitable for people aged 16+ who are responsible for fire safety or who are designated fire marshals in their workplace. The course will help learners to understand how a fire may start and spread; how to assess and manage these risks in the workplace; and how to use fire fighting equipment.

The course is accredited by the Institute of Fire Engineers (IFE).

Course Content

The course content includes:

- combustion principles
- how fire and smoke spread
- fire legislation, including the role of a fire marshal
- fire risk assessment
- emergency plan
- fire action
- use of fire equipment, including fire blanket and fire extinguishers*

Delivery and Outcomes

This half-day course helps learners to understand how a fire may start and spread, and how to assess and manage these risks in their workplace.

Learners must be physically able to carry out the practical elements of the course and attend all sessions to be eligible for assessment.

On successful completion of this course, you will receive a fire marshal certificate which is valid for three years by the British Red Cross. This course is accredited by the Institute of Fire Engineers (IFE).

For more information on this course please contact us.

*Role play including the use of dummy fire extinguishers to allow learners to practice in the classroom environment.
